Every small lesion of one patient (#78), and which ones survive compression

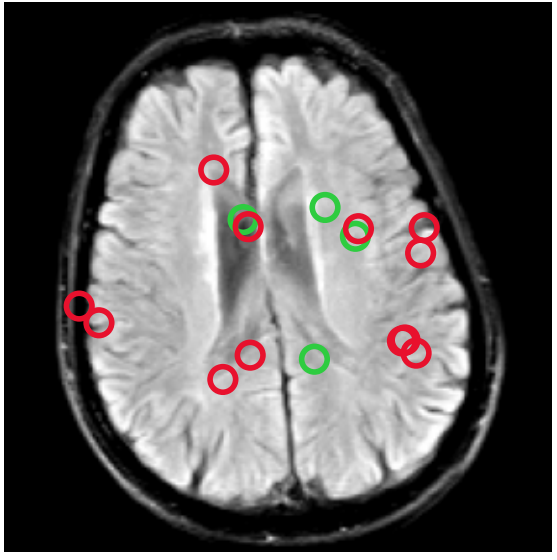

Baseline W1.0
1.98 M

11 / 16 small lesions detected

DSC 0.745

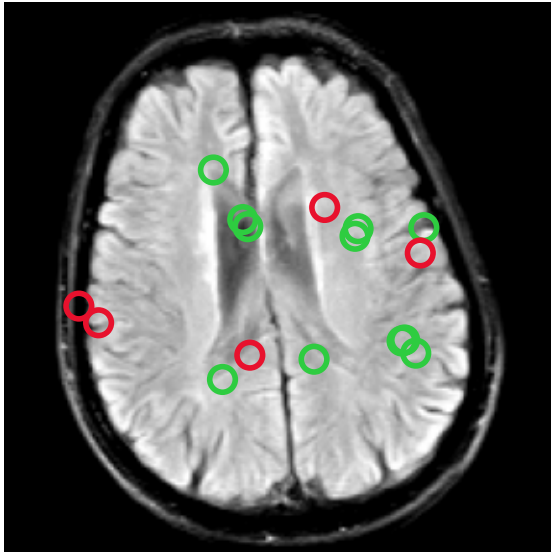

Width scaling W0.25
0.12 M

4 / 16 small lesions detected

DSC 0.773

Depth reduction (ours)
0.13 M

11 / 16 small lesions detected

DSC 0.789

Green circle = small lesion detected, red circle = missed. All three panels show the same lesions.

DSC does not fall across the panels — it rises — while the small lesions disappear.
